

LEARNING AND DEVELOPMENT

# Training prospectus

Invest in your people and drive  
excellence in the profession

# Training benefits

Invest in your people and drive excellence in the profession.

What is your current position at your organisation, and where would you like to be?

Similarly, if you manage a team or a business, how resilient is the overall skill set of your employees to future challenges?

Our portfolio of courses help teams and individuals to stay relevant and continue to upskill. We are here to provide support throughout your career – even if it changes direction.

- RICS pathways to qualification, standards, guidance and the CPD commitments RICS professionals undertake, instil the utmost levels of professionalism. This lays the strong foundation of enabling confident markets, pioneering better places to live and work, and supporting collaborative ways to build resilient within successful communities. It is the reason why all RICS Training courses are closely aligned with the very latest standards and underpinned by our professional competency frameworks. We want you to be sure that what you learn is relevant and will positively impact your day-to-day work and future career, as well as your business.
- We're here to help all industry professionals to progress. Whether that's to become chartered, upskill technically, comply with RICS standards, or develop management and leadership capabilities.

Browse this catalog, visit our website, or email our team at [training@rics.org](mailto:training@rics.org) to discover more about how RICS Training can help.

# Bespoke solutions

## Training to suit your business needs

Our in-house training is carefully crafted to meet the specific learning requirements of your organisation and its people. Businesses approach us for a range of reasons, including compliance, addressing skills gaps, standardising their approach to projects and training provisions for graduates or junior staff.

We work collaboratively, designing what could range from a one-off course through to mapping out a fully comprehensive structured programme for teams or individuals within an organisation.

Could we support you and your business?  
Contact us at [training@rics.org](mailto:training@rics.org) to explore more.

# Why choose RICS bespoke training?

- **Flexibility**

We provide training solutions across all surveying disciplines: QS and construction, building surveying, valuation, commercial property, residential property and land and natural resources.

- **Tailored**

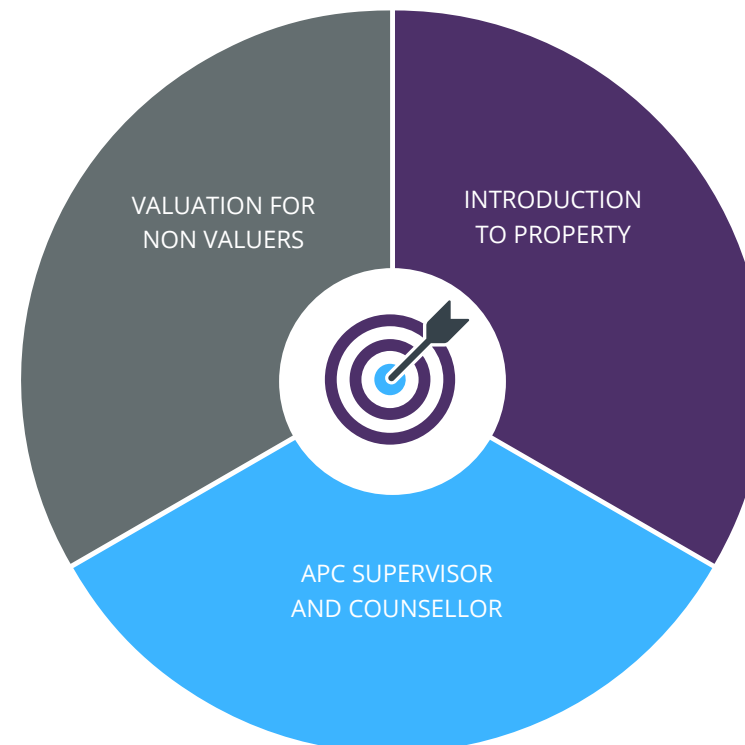

We work with large companies, public sector, SMEs to identify relevant courses from our existing portfolio or we can develop bespoke courses tailored to exact requirements.

- **Private**

We deliver courses at your premises or through private online channels, giving you the opportunity to discuss competitor issues or any other challenges.

Enquire today at [rics.org/training-events/training-courses/in-house-training](https://rics.org/training-events/training-courses/in-house-training)

## Some of our popular bespoke training topics

# Navigating our course listings

People have different learning styles and finding time to fit studies around a busy work schedule can be a challenge. With this in mind, we offer a variety of formats for our courses.

## Training programmes

A combination of e-Learning, consolidation sessions, set reading, and case study-based activities.

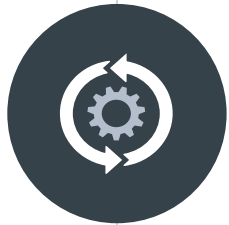

## Web classes

Learn wherever is convenient for you, through live chat and interaction with a trainer and other delegates.

## e-Learning

Short, succinct, and detailed modules that fit around your daily schedule.

## Toolkits

A wealth of materials based on your specific specialism or subject area.

## Course levels explained:

Covering fundamental principles and working knowledge of the topic.

## Our best sellers

### Certificate in Quantity Surveying Practice

#### TRAINING PROGRAMME

An intermediate-level course that will cover technical training around the key principles of tendering, estimating, and pricing to provide you with knowledge of construction contracts and their financial provisions.

On completion, you will have gained the fundamental skills needed to be an expert quantity surveyor and have confidence that you can progress your career with the capability employers seek.

*'The need for quantity surveyors, coupled with earth's dwindling resources and mounting concern over carbon emissions, means they play a vital role in ensuring developments are sustainable, reusable and low energy.'*

Course leader: Daniel Cadman

### Certificate in Building Information Modelling (BIM)

#### TRAINING PROGRAMME

This 10-month programme aligned with ISO, consistent with ISO 19650-2 provides an enhanced learning experience with project simulations, case study assignments, and local BIM experts for sharing best practice.

*'Conception of the ISO 19650 series was intended to unify the global approach to information management in design, construction, and operation. This requires us all and taking the first steps to understand the common process is critical, don't be left behind.'*

Course leader: Niall Murphy

### Certificate in Construction Project Management

#### TRAINING PROGRAMME

Designed for those who want to advance in their careers within the construction industry, this expert led training programme will provide a well-rounded view of managing a construction project lifecycle. By completing the course, you will gain in-depth knowledge of the core elements of construction project management and be able to apply essential skills to plan and oversee projects of various sizes and complexity.

*'The course blends those important soft and professional skills (communication, negotiation, management, leadership) with the required technical skillset (contract management, procurement, construction technology and the legal environment) to give delegates a rounded introduction or a refresh in best practice.'*

Course leader: Tim Jones

## CROSS SECTOR E-LEARNING

Extra resources to boost your CPD hours

**Could we support you  
and your business?**

Email us at [training@rics.org](mailto:training@rics.org)  
to start the conversation.

# GETTING RICS QUALIFIED

Finding the right training to support your APC can be daunting, as you must be confident in the training you receive.

RICS courses are delivered by highly regarded and current APC assessors. Whether you are just getting started, working towards written submissions, or looking for advice about your interview, our training can support you at every stage.

## Understanding the APC

Clear structure and guidance to help you start your APC journey efficiently and fulfill your personal and profession development through RICS membership.

- EL** e-Learning
- QP** Included in the Qualification Package
- £** £49 + VAT\*
- CPD** 1 CPD hour

Find out more and book online [here](#)

## Understanding the AssocRICS Qualification

Helping current and potential AssocRICS candidates understand the process details and effectively prepare for their application.

- EL** e-Learning
- QP** Included in the Qualification Package
- £** £49 + VAT\*
- CPD** 1 CPD hour

Find out more and book online [here](#)

## Understanding the Senior Professional Assessment (SPA)

Join this course to understand the process details and effectively prepare for your application.

- EL** e-Learning
- QP** Included in the Qualification Package
- £** £49 + VAT\*
- CPD** 1 CPD hour

Find out more and book online [here](#)

## APC Mock Interview

Watch a fully recorded mock interview for the Commercial Property pathway that follows the same structure as the official final assessment.

- EL** e-Learning
- QP** Included in the Qualification Package
- £** £109 + VAT members and £147 + VAT non-members\*
- CPD** 1 CPD hour

Find out more and book online [here](#)

## Conduct Rules, Ethics and Professional Practice Competency Masterclass

Conduct Rules and Ethical principles underpin all actions of RICS, and for those of you who are looking to gain RICS membership, it is essential you can demonstrate a thorough knowledge in these areas.

- WC** Web class
- QP** Included in the Qualification Package
- £** £98 + VAT members and £132 + VAT non-members\*
- CPD** 3 CPD hours

Find out more and book online [here](#)

\*The application of VAT is dependant upon the region of purchase.

## APC Prep Day

This vital course for APC candidates will help you to understand the APC process; equipping you with the skills to demonstrate competencies and preparing you for the final assessment. Delivered by our expert trainers who are APC Assessors and Mentors, this course has a unique mix of informative sessions and pathway-based workshops.

- WC** Web class
- QP** Included in the Qualification Package
- £** £214.50 + VAT members & £290 + VAT non-members\*
- CPD** 6 CPD hours

Find out more and book online [here](#)

## Preparing for your APC Case Study

Structuring your case study can be a challenge! Ensure you have clarity around the requirements and learn how to demonstrate evidence in line with the RICS competency framework for your best chance of success.

- WC** Web class
- QP** Included in the Qualification Package
- £** £98 + VAT members & £132 + VAT non-members\*
- CPD** 4.5 CPD hours

Find out more and book online [here](#)

## Preparing for your APC Final Assessment

As the ultimate assessment for gaining Chartered Status, the APC final interview can be a daunting experience. Ensure you prepare effectively for the best chance of success by identifying the practicalities and learning effective skills to demonstrate your knowledge, experience, and skills with confidence.

- WC** Web class
- QP** Included in the Qualification Package
- £** £98 + VAT members & £132 + VAT non-members\*
- CPD** 3 CPD hours

Find out more and book online [here](#)

## APC Supervisor and Counsellor Guide

Learn to describe each stage of the APC process, articulate your role as a supervisor or counsellor and differentiate competency levels. This course will describe the way you can best support your candidates to confidently progress through the different stages.

- WC** Web class
- QP** Included in the Qualification Package
- £** £98 + VAT members & £132 + VAT non-members\*
- CPD** 3 CPD hours

Find out more and book online [here](#)

\*The application of VAT is dependant upon the region of purchase.

# RICS Toolkits

Expertly curated toolkits with a wealth of materials including e-Learning covering multiple modules.

Note: These are not needed if you have an existing subscription to the RICS Qualification Package.

## Quantity Surveying Technical Competency Toolkit

Modules including:

- Commercial management
- Construction technology and environmental services
- Contract practice
- Design economics and cost planning
- Procurement and tendering
- Project finance
- Quantification and costing

**TK** Toolkit

**£** £125 + VAT members & £168.75 + VAT non-members\*

**CPD** 21 CPD hours

Find out more and book online [here](#)

## Project Management Surveying Technical Competency Toolkit

Modules including:

- Contract practice
- Development/project briefs
- Leading project, people and team
- Managing projects
- Programming and planning
- Construction technology and environmental services
- Procurement and tendering
- Project finance

**TK** Toolkit

**£** £125 + VAT members & £168.75 + VAT non-members\*

**CPD** 24 CPD hours

Find out more and book online [here](#)

## Building Surveying Technical Competency Toolkit

Modules including:

- Building pathology
- Construction technology and environmental services
- Contract administration
- Design and specification
- Inspection
- Fire safety (to Level 1)

**TK** Toolkit

**£** £125 + VAT members & £168.75 + VAT non-members\*

**CPD** 18 CPD hours

Find out more and book online [here](#)

\*The application of VAT is dependant upon the region of purchase.

## Residential Real Estate Technical Competency Toolkit

Modules including:

- Inspection
- Measurement
- Building pathology
- Letting and leasing
- Purchase and sales
- Housing maintenance repair and improvements
- Property management

**TK** Toolkit

**£** £125 + VAT members & £168.75 + VAT non-members\*

**CPD** 21 CPD hours

Find out more and book online [here](#)

## Commercial Real Estate Technical Competency Toolkit

Modules including:

- Measurement
- Letting and leasing
- Purchase and sales
- Development appraisals
- Landlord and tenant
- Property finance and funding
- Investment management

**TK** Toolkit

**£** £125 + VAT members & £168.75 + VAT non-members\*

**CPD** 24 CPD hours

Find out more and book online [here](#)

## Valuation Technical Competency Toolkit

Modules including:

- Inspection
- Measurement
- Context and information gathering for valuation
- Comparable method and the market
- Investment method of valuation
- Traditional method of residual valuation
- DRC and profits methods overview
- Valuation standards and the client

**TK** Toolkit

**£** £125 + VAT members & £168.75 + VAT non-members\*

**CPD** 24 CPD hours

Find out more and book online [here](#)

## Land and Resources Technical Competency Toolkit

Modules including:

- Access and rights over land
- Development/project briefs
- Landlord and tenant (including rent reviews and lease renewals)
- Surveying and mapping
- Measurement
- Planning and development management
- Property management

**TK** Toolkit

**£** £125 + VAT members & £168.75 + VAT non-members\*

**CPD** 24 CPD hours

# QS AND CONSTRUCTION

## Certificate in Building Information Modelling (BIM)

At your convenience within an ten-month timeframe, access high quality, speciality, and technical content delving into the entire BIM project lifecycle. This course is consistent with the international standards of ISO 19650-2. You will gain the knowledge and skills required to manage each step of the construction project, as well as implementing smoother collaboration between your stakeholders and reducing the risks of conflicts, delays and added project costs.

-  Training programme
-  Career progression
-  £1292.50 + VAT members & £1745 + VAT non-members\*
-  90 CPD hours

Find out more and book online [here](#)

## Certificate in Construction Project Management

This expert led training programme will provide you with a well-rounded view of managing a construction project lifecycle. You will gain in depth knowledge of the core elements of construction project management, and you will be able to oversee projects of various sizes and complexity.

-  Training programme
-  Career progression
-  £1094.50 + VAT members & £1478 + VAT non-members\*
-  90 CPD hours

Find out more and book online [here](#)

## Foundation in Quantity Surveying

Learning tailored to your quantity surveying needs and allowing you to gain a fundamental understanding. Taught by an industry expert, this eight-month course provides you with crucial skills to work autonomously or as part of a team on project tasks enabling you to further move towards your final assessment.

-  Training programme
-  Foundation level
-  £841.50 + VAT members & £1136 + VAT non-members\*
-  150 CPD hours

Find out more and book online [here](#)

## Certificate in Whole Life Carbon Assessment

Learn how to carry out carbon assessments in line with the requirements of comprehensive, consistent and practical standard. The course will provide explanation through examples and case studies to enable RICS practitioners and industry stakeholders to apply the standard in a practical and 'in use' situation.

-  Training programme
-  Career progression
-  £1850 + VAT members & £2497.50 + VAT non-members\*
-  80 CPD hours

Find out more and book online [here](#)

## Certificate in Quantity Surveying Practice

This course provides you with essential tools and practical knowledge in the core competencies of quantity surveying. Each content module is structured around one of the core competencies of the quantity surveying and construction pathway, aligned with the latest legislation.

-  Training programme
-  Career progression
-  £1094.50 + VAT members & £1478 + VAT non-members\*
-  150 CPD hours

Find out more and book online [here](#)

## Contract Administration

For anyone involved in construction projects, it is essential that accurate records are kept. This course will provide a practical insight into up-to-date practices on construction contracts. This includes contractual requirements, best practice, modern methods of information management and guidance on post contract administration.

-  Web class
-  Career progression
-  £181.50 + VAT members & £245 + VAT non-members\*
-  4.5 CPD hours

Find out more and book online [here](#)

\*The application of VAT is dependant upon the region of purchase.

## FIDIC Contract Principles and Practical Use

FIDIC is a widely used contract in Asia, Africa, and Europe. This session provides an overview of the parties' main responsibilities when a project is governed by one of the main FIDIC contracts. Key milestones of the FIDIC Conditions of Contract Suite will provide practitioners with useful insight as to how the various contract clauses interact to govern the execution of a project.

-  Web class
-  Career progression
-  Included in the Qualification Package
-  £181.50 + VAT members & £245 + VAT non-members\*
-  4.5 CPD hours

Find out more and book online [here](#)

## Global Introduction to Whole Life Carbon Assessment

An introduction for practitioners to learn and understand the requirements of the new WLCA standard. Delivered in three parts, focusing on: infrastructure, retro fit/refurb/maintaining and international application.

-  Web class
-  Career progression
-  £181.50 + VAT members & £245 + VAT non-members\*
-  4.5 CPD hours

Find out more and book online [here](#)

## NEC Principles and NEC4 Engineering and Construction Contracts

It is essential to know when, why and how to use the NEC contracts as each contract has its own specific function depending on the project. This course will provide members with a good understanding of this form of collaborative contract. It focuses on the principles and procedures written in NEC3, as well as giving an outline on the evolutionary changes as introduced in NEC4.

-  Web class
-  Career progression
-  Included in the Qualification Package
-  £181.50 + VAT members & £245 + VAT non-members\*
-  4.5 CPD hours

Find out more and book online [here](#)

## Risk Management

Develop the risk management skills that are expected of a RICS qualified Quantity Surveyor, and by RICS firms, giving you the confidence that you have the necessary capacity to perform effectively.

-  e-Learning
-  Career progression
-  £165 + VAT members & £223 + VAT non-members\*
-  3 CPD hours

Find out more and book online [here](#)

## JCT Delivering Construction Projects

Obtain a clear understanding of the JCT Contract, including the formation, the selection, and the introduction of the most common JCT Contracts, Minor Works, Design & Build and the Standard Building Contract.

-  Web class
-  Career progression
-  Included in the Qualification Package
-  £181.50 + VAT members & £245 + VAT non-members\*
-  4.5 CPD hours

Find out more and book online [here](#)

## BIM – The Fundamentals

Grasp a fundamental understanding of BIM to ensure you and your business are aware of BIM uses, risks and opportunities. This course is aligned to the global standard ISO19650 with an overview of the information management process.

-  e-Learning
-  Career progression
-  £165 + VAT members & £223 + VAT non-members\*
-  3 CPD hours

Find out more and book online [here](#)

\*The application of VAT is dependant upon the region of purchase.

## BIM Management Competence

Understand the BIM competence requirements at Level 2, taking you through the BIM Execution Plan (BEP) and key contractual documents. It explains the BIM management process according to ISO 19650 and compares BIM solutions at different stages.

- EL** e-Learning
- CP** Career progression
- £** £150 + VAT members & £195 + VAT non-members\*
- CPD** 3 CPD hours

Find out more and book online [here](#)

## Early Contractor Involvement

Learn how to deliver three major benefits to projects: reducing cost, reducing timescale, and achieving higher quality. Watch and listen to leading industry experts discussing their experience with Early Contractor Involvement. See how it can be a powerful driver for efficiency in the infrastructure and public sector, whilst recognising the potential areas of risk and what can be done to minimise them.

- EL** e-Learning
- CP** Career progression
- £** £32 + VAT members & £43 + VAT non-members\*
- CPD** 1 CPD hour

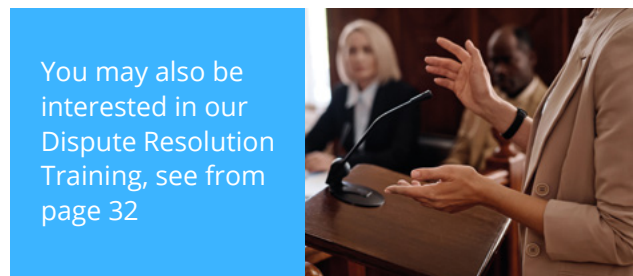

Find out more and book online [here](#)

## Applying ICMS 3 in Practice

ICMS offers a high-level framework against which life cycle costs and carbon emissions can be classified, defined, measured, recorded, analysed, presented, and compared. Furthermore, with the addition of Carbon Emissions included into ICMS 3, this course will enable you to: understand the relevance of climate change and carbon emissions to construction projects, whilst providing examples of when carbon emissions arise across the construction project life cycle.

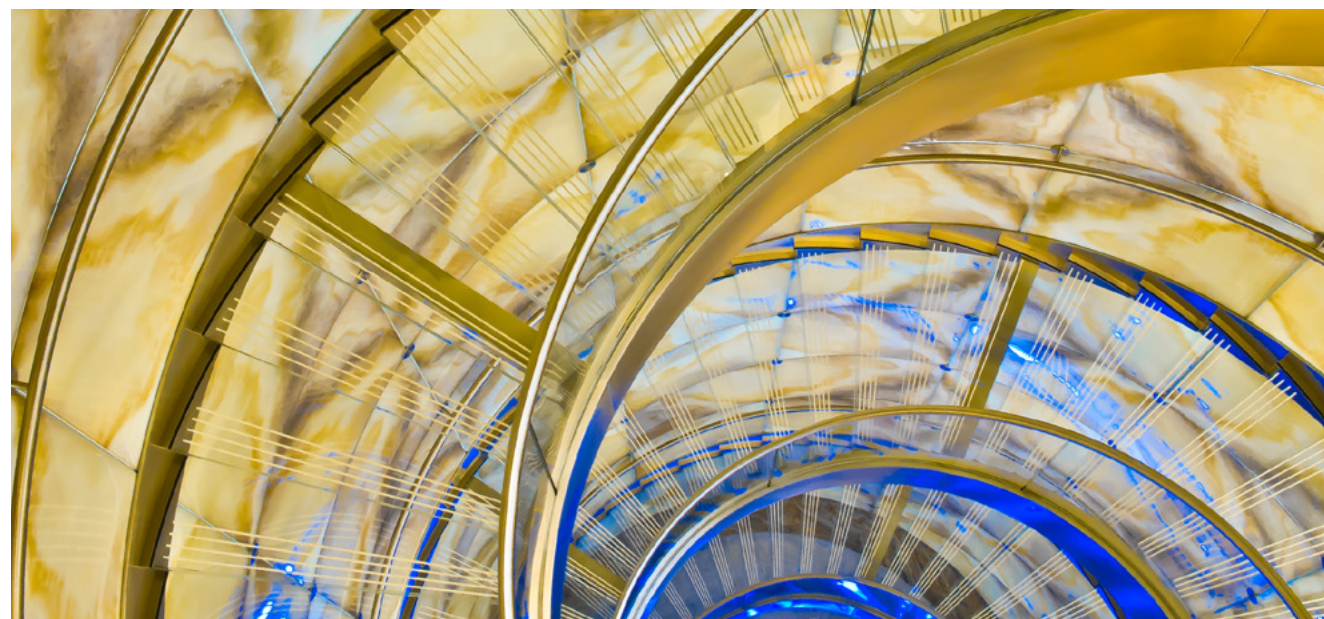

- EL** e-Learning
- CP** Career progression
- £** £0 members & £203 + VAT non-members\*
- CPD** 5 CPD hours

Find out more and book online [here](#)

# CROSS SECTOR E-LEARNING

## BOOST YOUR CPD HOURS!

All RICS professionals must undertake a minimum of 20 hours of CPD activity each calendar year. Half of those CPD hours should be formal or structured learning, such as training programmes and web classes.

However, there are multiple e-Learning options (unstructured learning) to start at any time around your day-job.

## Delivering confidence

We are RICS. As a member-led chartered professional body working in the public interest, we uphold the highest technical and ethical standards. We inspire professionalism, advance knowledge and support our members across global markets to make an effective contribution for the benefit of society. We independently regulate our members in the management of land, real estate, construction and infrastructure. Our work with others supports their professional practice and pioneers a natural and built environment that is sustainable, resilient and inclusive for all.
