**Scottish Social Housing Tender Price** Index **QUARTERLY BRIEFING** December 2019

# 2nd Quarter 2019/20 Indexi

- Tender prices for social housing in Scotland in 2Q19/20 are up on previous quarter and have been rising steadily over the past year. They are 4.2% up on the same quarter a year earlier.
- The price movement should be seen against a background of growing output in the Scottish construction sector, as a whole, and increased output from the Scottish housing sector in particular.
- The index for the latest quarter is based on a sample of 19 projects and is likely to be subject to revision as more projects are included.

Figure 1: SSHTPI and construction housing output **Scottish Social Housing Tender Prices and Scottish Housing Output** (SSHTPI (1985=100), Scottish new work housing output, £m, constant 2016 prices)

Source: Scottish Government, Office for National Statistics output adjusted to constant prices using the UK deflators by BCIS

# **Background**

Tender prices for social housing rose 1.0% in 2Q2019/20 and 4.2% compared with 2Q2018/19. They have been rising steadily over the past year.

-Scottish housing output -SSHTPI

- Tender prices are driven as much by demand as by resource costs, total new work output in Scotland grew strongly in recent quarters, new work output in 2Q2019/20 was up 3% on the previous quarter and 15% on 2Q2018/19.
- The SSHTPI has reflected the trend in demand from the Scottish housing sector, output was down slightly (2%) in the latest quarter but has risen 11% in the last year (2Q2018/19 to 2Q2019/20) and is at an historically high level.

# Scottish Social Housing Tender Price Index QUARTERLY BRIEFING December 2019

- A total of 23,700 dwellings were started in the year to 1Q2019/20 (the latest figures available), of which 6,776 (29%) were for the social sector. The total is up 22%, on the previous 12 months, while social sector starts are up 2.5%.
- Underlying construction costs of labour, materials and plant, as measured by the BCIS General Building Cost Index, rose 1.1% quarter-on-quarter in 2Q2019/20 and by 2.5% compared with the same quarter a year earlier.
- Over the year to 2Q2019/20 underlying inflation, as measured by the Consumer Prices Index (CPI), rose by 1.9%.

### N/A denotes insufficient sample size

Note: the location indices are calculated over 15 quarters and are based on the Scottish mean = 100 (See note on calculation).

Scottish Social Housing Tender Price
Index
QUARTERLY BRIEFING
December 2019

### **SSHTPI** calculation

The Scottish Social Housing Tender Price index is based on comparing the prices for the construction of houses in current schemes with cost models of dwellings of different type (terraced, semi-detached and detached houses and flats in different block configurations); occupancy (numbers of bedrooms and occupants), and size (floor area). These are adjusted for specification and design differences to provide a project tender price index. The project indices are adjusted for location and size of project. The quarterly index is calculated by averaging the adjusted project indices in each quarter. The index is smoothed to take account of the variation in the sample sizes. A full description of the index is available

The index offers a guide to the movement in prices in social housing schemes in Scotland and is used by the Scottish Government More Homes Division by the Scottish Government More Homes Division to update the Housing Tender Return, indicative cost calculation.
